NAR's REALTOR® Safety Program

NAR launched the REALTOR® Safety Program to educate and empower REALTORS®, helping them avoid job-related risks that could be life-threatening. The program emphasizes knowledge, awareness, and empowerment as its core elements.

NAR is committed to the welfare and safety of its members and has dedicated September as REALTOR® Safety Month. However, we strongly encourage associations, brokerages, and members to keep safety at the forefront of their minds every day of the year.

As part of our ongoing efforts to enhance safety, NAR continuously strengthens the program with new resources and tools such as:

- Webinars and videos on REALTOR® Safety, presented by industry experts.
- Shareable content, including weekly social media messaging for associations to easily share with members, and safety discussion topics for brokers.
- Safety materials including forms, protocols and best practices.
- NAR's annual Residential and Commercial Safety Reports.

Explore these resources at **nar.realtor/safety**.

For reprint information, contact data@realtors.org.

The National Association of REALTORS® is America's largest trade association, representing more than 1.4 million members, including NAR's institutes, societies and councils, involved in all aspects of the real estate industry. NAR membership includes brokers, salespeople, property managers, appraisers, counselors and others engaged in both residential and commercial real estate.

The term REALTOR® is a registered collective membership mark that identifies a real estate professional who is a member of the National Association of REALTORS® and subscribes to its strict Code of Ethics.

Working for America's property owners, the National Association provides a facility for professional development, research and exchange of information among its members and to the public and government for the purpose of preserving the free enterprise system and the right to own real property.

NATIONAL ASSOCIATION OF REALTORS® RESEARCH GROUP

The Mission of the NATIONAL ASSOCIATION OF REALTORS® Research Group is to produce timely, data-driven market analysis and authoritative business intelligence to serve members, and inform consumers, policymakers and the media in a professional and accessible manner.
