

# THE ECONOMIC IMPACT OF A TYPICAL HOME SALE

in New York

The real estate industry accounted for **\$366.6** billion or **17.0%** of the gross state product in 2023.

## TOTAL ECONOMIC IMPACT

**\$125,200**

**Real Estate Industries:** We assume that commissions, fees and moving expenses, or income to real estate industries, associated directly with the purchase are about 9% of the median home price.

**Expenditures related to home purchase:** Furniture and remodeling expenses are estimated to be about \$5,460 in 2023, based on the NAHB figure.

**Multiplier effect:** The multiplier effect accounts for the fact that income earned in other sectors of the economy as a result of a home sale is then re-circulated into the economy.

**New construction:** Additional home sales induce added home production. Typically, one new home is constructed for every six existing home sales. Thus, for every existing home sale, 1/6 of a new home's value is added to the economy.
